*Spots fill up quickly so, please call (262) 605-7900 to reserve a seat*

## First Hour: Severe Weather Safety

- How to get information quickly
- Wisconsin's Tornado History
- Damaging Wind Safety
- Flash Flood Safety
- Lightning Safety
- Tornado Safety
- Hail Safety

## Second Hour: Storm Spotter Training

- What weather should be reported?
- Why does the NWS need spotters?
- When should you report?
- How should you report?
- Storm Spotting Safety
- Radar interpretation
- Storm features

This training is free to the public, and conducted by a National Weather Service (NWS) Meteorologist. Tornado Spotters are typically concerned citizens, amateur radio operators, truck drivers, mariners, airplane pilots, and public safety officials who report severe weather impacting their communities. The NWS also encourages people affiliated with hospitals, schools, churches, nursing homes, and daycares to receive spotter training.

All are welcome to attend both training sessions, and there is no obligation to become a storm spotter. Pre-registration is not required.

*Sponsored in cooperation with  
Kenosha County Sheriff's Department Emergency Management*
